This from Dan Higgins:

A man was driving along a rural road one day when he saw a three legged chicken. Amused, he drove alongside it for a while, and noticed the chicken doing 30 mph. Pretty fast chicken, he thought, I wonder just how fast it can run? So he sped up and the chicken did too! They were not moving along the road a 45 mph! The man in the car sped up again and to his surprise the chicken was still running ahead of him at 60 mph!

Suddenly, the chicken turned off the road and ran down a long driveway to a farmhouse. The driver followed the chicken to the house where he saw a man in the yard and dozens of three legged chickens. The man in the car called out to the farmer "How'd you get all these three legged chickens?" The farmer replied, "I breed 'em. It's me, my wife and my son all living here and we all like to eat chicken legs. Since a chicken has 2 legs, I started breeding this 3 legged variety so we could all eat our favorite piece."

That's amazing!" said the driver "How do they taste?"

"Don't rightly know, can't catch 'em." * * *
